AGRICULTURE

AGRI 01

Activity

Organic Olive Oil

Current situation of farm unit

Total area: 500 ha

Irrigated area: 7 ha

Location: Bir Ali Ben Khelifa- Sfax (South East)

Water resources: surface well – flow: 3 l / s

Existing crops: 387 ha of olive trees and 90 ha of almond trees

Other Activities: oil mill 35 T / day

Employment: 10 permanent jobs

Certification: Ecocert

Desired partnership project

The promoter is seeking a commercial partnership to export organic olive oil (200 tons).

AGRI 02

Activity

Arboriculture and vegetable crops

Current situation of farm unit

Total area: 640 ha (state owned land)

Irrigated area: 140 ha.

Status of farm unit: long term rental

Location: Tebourba - Manouba (North East Tunisia).

Water resources: pumping from Oued Medjerda 25l/s expandable

Existing crops: 30 ha of pistachio trees, 25 ha of almond trees, 300 ha of organic olive trees and 100 ha of vegetable crops.

Employment: 10 permanent jobs including 2 technicians.

Desired partnership project

The promoter is seeking investment partnership to cultivate 50 hectares of certified organic bare land and wants to export its products: organic almonds, vegetables and cereals.

AGRI 03

Activity

Organic vegetables and, medicinal & aromatic plants

Current situation of farm unit

Total area: 9 ha

Irrigated area: 9 ha.

Location: Jebel West -Zaghouan (North East)

Water resources: drilling – flow 24 l / s, .salinity: 2 g / l

Existing crops: 9 ha organic vegetable crops

Employment: 1 permanent position

Certification: Global Gap / HACCP 22000.

Desired partnership project

The promoter is seeking a cultivation contract for the production of organic vegetables.

He is also seeking an investment partnership for the production of organic medicinal and aromatic plants integrated in a unit of essential oils extraction.

AGRI 04

Activity

Large scale farming

Current situation of farm unit

Total area: 100 ha (property)

Location: Nefza – Béja (North West Tunisia).

Existing crops: Large scale farming

Employment: 4 permanent jobs

Desired partnership project

The promoter is seeking investment partnership for the creation of a unit producing aromatic and medicinal plants over a surface of 100 ha integrated in a drying and distillation unit in order to export dried products and essential oils.

AGRI 05

Activity

Vegetable crops in greenhouses heated by geothermal waters

Current situation of farm unit

Total area: 25 ha (property)

Irrigated area: 10 ha.

Location: El Hamma - Gabès (South East Tunisia).

Water resources: geothermal waters: 5 l / s / ha.

Existing crops: 1.5 ha of olive trees, 1 ha of fig trees, 2 ha of early tomatoes in early greenhouses and 2 ha of field onions

Employment: 13 permanent jobs

Desired partnership project

The promoter is seeking an investment partner for the production of tomatoes, cucumbers and melons in greenhouses heated by geothermal waters (3 ha) intended for export.

The promoter is also seeking to export early tomatoes and onions.

AGRI 06

Activity

Large scale farming and vegetable crops

Current situation of farm unit

Total area: 106 ha

Irrigated area: 70 ha.

Location: Borj El Amri – Manouba (North East Tunisia)

Water resources: 2 drillings: 40 l / s salinity 1 g / l

Existing crops: durum (40 ha), late potatoes (11 ha)

Employment: 3 permanent jobs

Desired partnership project

The promoter is seeking an investment partnership to set up multi layer greenhouses for the production of cut flowers (gladiolus, lilies, ranunculus, Gypsophila, Limonium and roses) for export.

The promoter is also seeking to export late potatoes, lettuces and green beans.

AGRI 07

Activity

Floriculture and seedlings production

Current situation of farm unit

Total area: 20 ha

Irrigated area: 20 ha.

Location: Khelidia - Ben Arous (North East Tunisia)

Water resources: drilling: 15 l / s salinity 0.6 g / l

Existing crops: rose trees (19 ha), rose tree nursery (1 ha)

Employment: 22 permanent jobs including 1 technician

Desired partnership project

The promoter is seeking an investment partnership to upgrade the production of flowers and olive tree (producing oil olives) seedlings in greenhouses.

The promoter is also seeking to export cut flowers.

AGRI 08

Activity

Fruit trees and seedlings production

Current situation of farm unit

Total area: 149 ha

Irrigated area: 109 ha.

Location: Khelidia - Ben Arous (North East Tunisia)

Water resources: 2 deep drillings: 50 l / s salinity 1.9 g / l

Existing crops: arboriculture (grapes, peach trees, plum trees, citrus fruits) and a production unit of strawberry plants, olive trees and artichokes)

Employment: 68 permanent jobs including 8 technicians

Desired partnership project

The promoter is seeking to export in vitro seedlings of strawberry and artichokes plants (800,000 units) and root stocks (800,000 plants).

The promoter is also seeking to export production of potato seeds (micro tubers) 100 t/ year and olive trees plants, citrus fruits and various fruit plants (table grapes, peaches, citrus, plums).

AGRI 09

Activity

Seedlings production

Current situation of farm unit

Total area: 58 ha

Irrigated area: 58 ha.

Location: Mehrine – Manouba (North East Tunisia)

Water resources: Medjerda Canal

Existing crops: peach trees (33 ha) table grapes (8 ha), artichokes (8 ha), apple trees (1 ha) and a tree nursery on 6 ha.

Employment: 15 permanent jobs including 3 technicians

Desired partnership project

The promoter is seeking a commercial partner to export fruit plants (peaches, plums, apricots: 300,000 plants) and vegetable crops (artichokes and tomatoes).

AGRI 10

Activity

Fruit arboriculture

Current situation of farm unit

Total area: 25 ha

Irrigated area: 25 ha.

Location: Mornag- Ben Arous (North East Tunisia)

Water resources: surface wells: 20 l / s Salinity 1 g / l

Existing crops: 10 ha of table grapes, 6 ha of peach trees; 2 ha citrus fruits and 2 ha of pear trees.

Employment: 7 permanent jobs

Desired partnership project

The promoter is seeking a commercial partnership to export his production: peaches table grapes and citrus fruits.

The promoter is also seeking an investment partnership to set up a multi layer greenhouse over a surface of 1 ha to produce cut flowers.

AGRI 12

Activity

Vegetable crops

Current situation of farm unit

Total area: 22 ha

Irrigated area: 22 ha.

Location: Sidi Thabet - Ariana (North East Tunisia)

Water resources: public irrigated area - 0.35 l / s / ha - salinity: 1.8 g / l

Main production: 70 000000 dozen artichoke (violet artichokes)

Employment: 3 permanent jobs

Desired partnership project

With a potential 70 000 dozen artichoke / year, the promoter would like to create a processing and export production unit of artichokes, fresh or processed.

AGRI 13

Activity

Arboriculture

Current situation of farm unit

Total area: 662 ha

Irrigated area: 550 ha.

Location: Batane - Manouba (North East Tunisia)

Water resources: Irrigated area: Batane - Salinity: 1.8 g / l

Existing crops: pear trees (32 ha), peach trees (57 ha), table grapes (23 ha), apple trees (15 ha), citrus fruits (50 ha), plum trees (16 ha), olive trees (table olives - 9 ha), almond and apricot trees (17 ha)

Other Activities: bee keeping (300 hives) producing 800 kg of honey.

Employment: 25 permanent jobs including 5 technicians

Desired partnership project

With a potential annual production of 300 tons of pears, 150 tons of peaches, 200 tons of table grapes, 50 tons of apples and 200 tons of citrus fruits, the promoter wishes to export its products to Europe and to Gulf countries.

AGRI 14

Activity

Arboriculture

Current situation of farm unit

Total area: 22 ha

Irrigated area: 22 ha

Location: Chebedda - Ben Arous (North East Tunisia)

Water resources: irrigated area - salinity: 1 g / l

Existing crops: 22 ha prickly pears

Employment: 1 permanent job

Desired partnership project

The promoter is seeking to export prickly pears (200 tons).

AGRI 15

Activity

Packaging of fruits and vegetables

Current situation of farm unit

Total area: 25 ha

Irrigated area: 25 ha.

Location: Bouargoub - Nabeul (North East Tunisia)

Water resources: 5 drillings - flow 20 l / s - salinity 1 g / l

Existing crops: 20 ha of citrus fruits, 3 ha of pear trees, 1 ha of cactus, 1 ha of pomegranate trees, 2 ha of peach trees

Other activities: a packaging unit 1,400 m² (7 cold rooms with a total capacity of 500 tons)

Employment: 5 permanent jobs.

Desired partnership project

The promoter is seeking a commercial partnership to export peaches prickly pears, citrus fruits and pomegranates.

AGRI 16

Activity

Fruit arboriculture

Current situation of farm unit

Total area: 56 ha

Irrigated area: 46 ha.

Location: Samech - Nabeul (North East Tunisia)

Water resources: flow: 14 l / s - salinity 2 g / l

Existing crops: 23 ha of peach trees, 18 ha plum trees, 5 ha of Nectarines..

Employment: 40 permanent jobs including 5 technicians

Desired partnership project

The promoter is seeking a commercial partnership to export fruits: peaches 350 t, plums 300 t and nectarines 40 t.

AGRI 17

Activity

Large scale farming and vegetable crops

Current situation of farm unit

Total area: 85.5 ha

Irrigated area: 85.5 ha.

Location: Goubellat - Béja (North West Tunisia)

Water resources: Irrigated area: Goubellat 0.5 l / s / ha - salinity 1 g / l

Existing crops: potatoes, garlic artichokes, water melons, melons and tomatoes

Employment: 5 permanent jobs including 1 technician

Desired partnership project

The promoter is seeking a commercial partnership to export late potatoes (Nicolas variety), dried tomatoes, water melons, melons and artichokes (violet variety), garlic and onions.

AGRI 18

Activity

Vegetable crops and arboriculture

Current situation of farm unit

Total area: 60 ha

Irrigated area: 60 ha.

Location: Goubellat - Béja (North West Tunisia)

Water resources: irrigated surface 0.5 l / s / ha - salinity 1.8 g / l

Existing crops: 30 ha of olive trees and almond trees and 26 ha of vegetable crops

Employment: 6 permanent jobs including 2 technicians

Desired partnership project

The promoter is seeking to export vegetable crops: late potatoes, (Nicolas variety), dried tomatoes, water melons, melons artichokes (violet variety), garlic and onion ...

AGRI 19

Activity

Arboriculture and vegetable crops

Current situation of farm unit

Total area: 80 ha

Irrigated area: 80 ha.

Location: Jendouba (North West Tunisia)

Water resources: – flow 0.5 l / s / ha - salinity 0.8 g / l

Existing crops: 20 ha of peach trees, 14 ha of artichokes and 30 ha of tomatoes and potatoes.

Employment: 22 permanent jobs including 6 technicians

Desired partnership project

The promoter is seeking a commercial partnership to export artichokes, peaches, gumbos and potatoes.

AGRI 20

Activity

Vegetable crops

Current situation of farm unit

Total area: 186 ha

Irrigated area: 40 ha

Location: Bir Mcherga – Zaghouan (North East Tunisia)

Water resources: pumping from Bir M'cherga dam - salinity: 2 g / l

Existing crops: 100 ha large scale farming, 5 ha of artichokes and 10 ha of tomatoes

Employment: 4 permanent jobs

Desired partnership project

The promoter is seeking an investment partnership or a cultivation contract over a surface of 80 ha to grow vegetable crops (artichokes, potatoes, lettuces....).

AGRI 21

Activity

Arboriculture and vegetable crops

Current situation of farm unit

Total area: 973 ha

Irrigated area: 940 ha.

Location: Bousalem - Jendouba (North West Tunisia)

Water resources: – flow: 0.5 l / s / ha - salinity 1 g / l

Existing crops: 45 ha citrus fruits, 25 ha of table grapes, 10 ha of apple trees, 5 ha of pear trees, 25 ha of peach trees, 19 ha of almond trees, 22 ha of olive trees producing table olives and 65 ha olive trees producing oil olives

Other activities: cattle breeding (600 head Holshtein type) and Beekeeping (200 bee hives).

Employment: 50 permanent jobs including 10 technicians

Desired partnership project

The promoter is seeking a commercial partnership to export citrus fruits (Maltese oranges), vegetable crops (potatoes, lettuce, strawberries) and tree products (peaches, table grapes, table olives).

AGRI 22

Activity

Vegetable crops

Current situation of farm unit

Total area: 52 ha

Irrigated area: 36 ha.

Location: Menzel Chaker – Sfax (South East Tunisia)

Water resources: drilling 12 l / s - salinity: 3 g / l

Existing crops: 12 ha of late potatoes, 12 ha of late tomatoes and 12 ha of early peppers

Employment: 4 permanent jobs including 1 technician

Desired partnership project

The promoter is seeking to export the following vegetables: (late potatoes - Nicolas variety - and late tomatoes and peppers).

AGRI 23

Activity

Vegetable crops

Current situation of farm unit

Total area: 189 ha

Irrigated area: 120 ha.

Location: Mahrès - Sfax (South East Tunisia)

Water resources: 8 surface wells 45 l / s - salinity: 2 g / l

Existing crops: 33 ha of potatoes, 40 ha of tomatoes, and 30 ha peppers)

Employment: 68 permanent jobs including 2 technicians

Desired partnership project

The promoter is seeking to export late potatoes – Nicolas variety, early tomatoes and dried tomatoes, water melons, melons, peppers and lettuces...)

AGRI 24

Activity

Arboriculture and vegetable crops

Current situation of farm unit

Total area: 40 ha

Irrigated area: 30 ha.

Location: El Labba- Medenine (South East Tunisia)

Water resources: 3 drillings - flow: 20 l / s - salinity 2.18 g / l

Existing crops: 23 ha of olive trees - producing oil olives (60 t), 8 ha of early peach trees (200 t)

Breeding: 120 dairy cows, 100 veal calves

Employment: 15 permanent jobs including 3 managers

Desired partnership project

The promoter is seeking a financial partner to create a unit producing table grapes, and asparagus.

The project proponent also wishes to export potatoes, water melons and melons.

AGRI 25

Activity

Fruit trees and vegetable crops

Current situation of farm unit

Total area: 467 ha

Irrigated area: 467 ha.

Location: Bousalem - Jendouba (North West Tunisia)

Water resources: irrigated public surface Mejerda

Existing crops: 5 ha of table grapes, 10 ha apple trees, 7 ha peach trees, 4 ha citrus fruit trees and 50 ha vegetable crops

Other Activities: cattle breeding (300 heads).

Desired partnership project

The promoter is seeking a commercial partnership to export vegetables (potatoes, artichokes, winter onions and dried tomatoes) and fruits (citrus fruits and peaches).

AGRI 26

Activity

Arboriculture and vegetable crops

Current situation of farm unit

Total area: 65 ha

Irrigated area: 65 ha.

Location: Regueb - Sidi Bouzid (Centre West Tunisia)

Water resources: 2 drillings with a flow of 28 l/s

Existing crops: 10 ha of grapes, 5 ha of peach trees – nectarines, 16 ha of almond trees, 4 ha of citrus fruits and 30 ha of vegetable crops

Employment: 3 permanent jobs including 1 technician

Desired partnership project

The promoter is seeking a financial partnership to create a production unit of asparagus, integrated in a processing unit.

The project proponent is also seeking a commercial partner to export tree fruits and early vegetables: (table grapes, peaches, asparagus, late potatoes -Nicolas variety-, water melons, melon and artichokes – violet variety).

AGRI 27

Activity

Arboriculture

Current situation of farm unit

Total area: 400 ha

Irrigated area: 150 ha.

Location: Sbikha - Kairouan

Water resources: drilling – flow: 32 l / s - salinity: 1 g / l

Existing crops: table olives (20 ha), almond trees (20 ha)

Employment: 5 permanent jobs including 1 technician

Desired partnership project

The promoter is seeking an investment partnership to plant apricot trees, peach trees, table grapes and table olives over a total surface of 100 ha.

AGRI 28

Activity

Vegetable crops and arboriculture

Current situation of farm unit

Total area: 80 ha.

Irrigated area: 60 ha.

Status of farming unit: long term rental

Location: Jemna- Kébili (South West Tunisia)

Water resources: drilling 70 l / s - salinity 1 g / l

Existing crops: date palm trees (60 ha), potato (20 ha in intercropping)

Employment: 6 permanent jobs including 1 technician.

Desired partnership project

The promoter is seeking to export late potatoes (Nicolas variety) 500 tons / year, and dates: 200 tons / year).

AGRI 30

Activity

Vegetable crops

Current situation of farm unit

Total area: 40 ha

Irrigated area: 40 ha.

Location: Sidi Yaiche - Gafsa (South West Tunisia)

Water resources: irrigated area Sidi Yaiche

Existing crops: 40 ha of potatoes

Employment: 1 permanent job

Desired partnership project

The promoter is seeking to export the following vegetable crops: (late potatoes - Nicolas variety - 1000 tons), water melon and melon.

AGRI 31

Activity

Arboriculture

Current situation of farm unit

Total area: 150 ha

Irrigated area: 150 ha.

Location: Sbeitla - Kasserine (Centre West Tunisia)

Water resources: irrigated area

Existing crops: apple trees, plum trees, almond trees, olive trees

Other activities: cooling unit (6000 tons) and an oil mill

Employment: 50 permanent jobs including 8 technicians.

Desired partnership project

The promoter is seeking a commercial partnership to export apples, plums, almonds and olive oil.

AGRI 32

Activity

Olive growing

Current situation of farm unit

Total area: 10 ha

Irrigated area: 7 ha.

Location: Béjaoua - Ariana (North East Tunisia)

Main production: 1000 tons of olive oil

Infrastructure: 4 oil mills (15 t / h) and a bottling unit

Employment: 7 permanent jobs

Desired partnership project

The promoter is seeking a partner to export olive oil in bulk (500 t / year) and bottled oil.

AGRI 33

Activity

Compost and mushrooms production

Current situation of farm unit

Total area: 10 ha

Irrigated area: 10 ha.

Location: Béja (North West Tunisia)

Water resources: surface wells (5 l / s)

Existing crops: Paris mushrooms and oyster mushrooms 350 tons / year

Employment: 5 permanent jobs

Desired partnership project

The promoter is seeking a commercial partnership to export Paris mushrooms and oyster mushrooms to Europe and to export compost to North Africa.

The project proponent is also seeking an investment partnership to create a processing unit for the production of canned mushrooms.

AGRI 34

Activity

Arboriculture

Current situation of farm unit

Total area: 50 ha

Irrigated area: 50 ha.

Location: Regueb- Sidi Bouzid (Centre West Tunisia)

Water resources: drilling with a flow of 45 l / s - salinity 1.6 g / l

Existing crops: 40 ha of fruit trees (table grapes, peach trees and citrus fruits).

Employment: 3 permanent jobs

Desired partnership project

The promoter is seeking an investment partnership to create a cooling unit with a capacity of 200 t (fruits and early vegetables).

The project proponent is also seeking to export current production of table grapes, of peaches and of citrus fruit.

AGRI 36

Activity

Large scale farming

Current situation of farm unit

Total area: 247 ha

Irrigated area: 20 ha.

Location: Béja (North West Tunisia)

Water resources: pumping from Oued Medjerda

Crop production: field crops (fodder crops)

Animal Production: 800 heads of sheep (meat breed)

Employment: 3 permanent jobs.

Desired partnership project

The promoter is seeking a financial partnership for the creation of a unit of dairy sheep farming (500 heads) and the establishment of a cheese production unit.

The project proponent is also seeking to export dried tomatoes and artichokes - violet variety.

AGRI 37

Activity

Field crops and livestock

Current situation of farm unit

Total area: 30 ha

Irrigated area: 5 ha.

Location: Sejnène - Bizerte (North East Tunisia)

Livestock: 100 head of goats and 150 bee hives

Production: Honey - 3 tons

Employment: 3 permanent jobs including 1 technician

Desired partnership project

The promoter is seeking an investment partnership for goat breeding (250 head) and for the production of milk integrated to a cheese making unit.

The project proponent is also seeking to export organic honey - 3 tons.

AGRI 38

Activity

Snail breeding

Current situation of farm unit

Total area: 1 ha

Location: Tabarka - Jendouba (North West Tunisia)

Main Activity: Snail breeding with an annual production of 19.5 tons. Species: *Helix aspersa*, *Helix aspersa maxima*, *Helix aperta*

Employment: 6 permanent jobs.

Desired partnership project

The promoter is seeking an investment partnership to create a production unit of snails (*Helix aspersa*, *Helix aspersa maxima*, *Helix pomatia* - de Bourgogne and Tapado) integrated in a processing and packaging unit to export to Italy and France.

AGRI 39

Activity

Fish farming

Current situation of farm unit

Floating fish cages: 50 000 m²

Location: Khenis - Monastir (Centre East Tunisia)

Production: 50 t / year of sea bass and sea breams

Employment: 6 permanent jobs including 2 technicians

Desired partnership project

The promoter is seeking a financial partnership to extend the project and to set up 40 floating cages (100 m²) to produce 300 t of fish (sea bass and sea breams) to be exported to European countries.

The promoter is also seeking to export current fish production (50 tons).

AGRI 40

Activity

Fishery

Current situation of farm unit

Location: port of Mahdia (Centre East Tunisia)

Production: 325 tons of seafood products

Employment: 27 permanent jobs including 9 technicians

Desired partnership project

The promoter is seeking a financial partnership for fish farming. He is also seeking a commercial partnership to export frozen king prawns (25 tons), frozen octopus (200 tons) under the brand KURIAT.

AGRI 41

Activity

Shellfish breeding and marketing

Current situation of farm unit

Total area: 18 700 m²

Location: Lake of Bizerte (North East Tunisia)

Production: 100 tons of mussels, 10 tons of oysters, and 20 tons of clams

Employment: 10 permanent jobs including 2 technicians

Desired partnership project

The promoter is seeking an investment partnership to create a processing unit for fishery products over an area of 500 m².

The promoter is also seeking to export 30 tons of live mussels, 2 tons of live oysters and 20 tons of live clams.

AGRI 42

Activity

Shellfish breeding and marketing

Current situation of farm unit

Total area: 64 ha

Location: Lake of Bizerte (North East Tunisia)

Main production: mussels (50t), oysters (5 t) and clams (15 t)

Employment: 11 permanent jobs including 2 technicians

Desired partnership project

The promoter is seeking a financial partner for the extension of the project to export mussels and oysters.

The promoter is also seeking to export the production of mussels (50 t), oysters (5 t) and clams (15 t).

AGRI 43

Activity

Packaging of fishery products

Current situation of farm unit

Location: port de Zarzis - Médenine (South East Tunisia)

Production: packed tuna (15 tons / day, packed sardine (10t / day), frozen fish

Employment: 72 permanent jobs including 12 technicians

Desired partnership project

The promoter is seeking a commercial partnership to export packed tuna and fish and frozen fish (cuttlefish, octopus, shrimp).

AGRI 44

Activity

Snail processing

Current situation of farm unit

Total area: 725 m²

Location: Gaafour - Siliana (North West Tunisia)

Production: 100 tons of snails (live and processed).

Employment: 10 permanent jobs.

Desired partnership project

The promoter is seeking a commercial partner to export snails (100 tons)

AGRI 45

Activity

Fruit trees and vegetable crops

Current situation of farm unit

Total area: 40 ha

Irrigated area: 20 ha.

Location: Ben Oun – Sidi Bouzid (Centre East Tunisia)

Water resources: drilling flow: 10 l / s - salinity: 1.4 g / l

Existing crops: 10 ha of almond trees, 3 ha of grapes

Employment: 1 permanent job

Desired partnership project

The promoter is seeking investment partnership to dig a drilling and to create a greenhouse for vegetable crops.

The promoter is also seeking to export almonds (150 tons).

AGRI 46

Activity

Fruit trees and vegetable crops

Current situation of farm unit

Total area: 64 ha (a property)

Irrigated area: 12 ha

Location: El Mazouna- Sidi Bouzid (Centre West)

Water resources: surface wells: 4 l / s, salinity: 3 g / l

Existing crops: 36 ha of olive trees and 7 ha of pistachio trees and 6 ha of almond trees

Employment: 2 permanent jobs

Desired partnership project

The promoter is seeking an investment partnership for the plantation of fruit trees and vegetable crops.

AGRI 47

Activity

Arboriculture

Current situation of farm unit

Total area: 55 ha (property)

Irrigated area: 55 ha.

Location: Soummar - Tataouine (South East Tunisia).

Water resources: 2 deep wells (6 l / s), salinity: 3.5 g / l.

Existing crops: 20 ha of olive trees (oil olives) and 5 ha of pistachio trees

Employment: 4 permanent jobs

Desired partnership project

The promoter is seeking an investment partnership to plant early fruit peach trees, and to produce aromatic and medicinal plants over a surface of 30 ha integrated in a processing unit.

AGRI 48

Activity

Arboriculture

Current situation of farm unit

Total area: 160 ha

Irrigated area: 50 ha.

Location: Remada - Tataouine (South East Tunisia)

Water resources: deep wells: 15 l / s – salinity: 2.5 g / l

Existing crops: 10 ha of olive trees (oil olives), 4000 almond trees, peach trees

Employment: 2 permanent jobs

Desired partnership project

The promoter is seeking a partner to export early peaches, asparagus, late potatoes, prickly pears and dates over an area of 140 ha.

AGRI 49

Activity

Vegetable crops, fruit trees and horse breeding

Current situation of farm unit

Total area: 36 ha

Irrigated area: 36 ha.

Location: Sidi Thabet - Ariana

Existing crops: 11 ha of citrus fruits, 9 ha of olive trees, 6 ha of peach trees and 4 ha of greenhouse vegetable crops.

Husbandry: 20 pure bred Arab mares

Employment: 3 permanent jobs including 1 technician and 2 workmen

Desired partnership project

The promoter has two cooling unit with a capacity of 150 tons and is seeking a financial partner to create a new packing unit of fruits and vegetables with a capacity of 500 tons.

The promoter is also seeking a partnership to pure bred Arab race horses.

AGRI 51

Activity

Arboriculture

Current situation of farm unit

Total area: 97 ha

Irrigated area: 7 ha.

Location: Aguila - Gafsa

Water resources: 2 drillings, flow: 12 l / s - salinity: 2.5 g / l

Existing crops: 4 ha of olive trees and 3 ha of almond trees

Employment: 2 permanent jobs

Desired partnership project

The promoter is seeking a financial partner for the development of in semi intensive and intensive of a fruit trees project (pistachio trees, olive trees and almond trees) over a surface of 90 ha.

AGRI 52

Activity

Vegetable crops

Current situation of farm unit

Total area: 30 ha

Irrigated area: 30 ha.

Location: Bouficha - Sousse

Water resources: drilling, flow: 3 l / s - salinity: 1.5 g / l

Existing crops: 10 ha of leeks (200 tons) and 20 ha of tomatoes (150 tons)

Husbandry: 20 pure bred Arab mares

Employment: 3 permanent jobs including 1 technician and 2 workmen.

Desired partnership project

The promoter is seeking a financial partner for the creation of a unit to produce leeks and dried tomatoes for export over an area of 30 ha.

AGRI 53

Activity

Arboriculture and apiculture

Current situation of farm unit

Total area: 48 ha.

Location: Ouaslatia - Kairouan

Existing crops: 3 ha of olive tree seedlings - *ouaslati*, 1.5 ha of olive trees (3t/ ha), 20 ha of apple trees

Husbandry: 100 bee hives

Employment: 3 permanent jobs including 1 technician and 2 workmen.

Desired partnership project

The promoter is seeking a financial partner to produce aromatic and medicinal organic plants over an area of 15 ha.

The promoter is also seeking a partner to create a unit for distillation and drying of aromatic and medicinal organic plants for export.

AGRI 54

Activity

Olive growing

Current situation of farm unit

Total area: 200 ha

Irrigated area: 200 ha

Location: Regueb - Meknassi - Sidi Bouzid

Water resources: flow: 70 l / s, salinity: 2.5 g / l

Existing crops: 3000 olive trees (210 tons)

Other activities: extraction of olive oil - 1000 tons

Employment: 10 permanent jobs including 3 technicians

Desired partnership project

The promoter is seeking a financial partner to plant fruit trees on an area of 50 ha.

AGRI 55

Activity

Olive oil production

Current situation of farm unit

Total area: 120 ha

Irrigated area: 30 ha

Location: Kairouan

Water resources: flow: 10 l / s, salinity: 2.8 g / l

Existing crops: 200 ha of olive trees (table olives and oil olives)

Desired partnership project
